### Nutritional properties:

Apart from being packed with Vitamin C, clementines contain different types of flavonoids, including nobiletin and espertin. Espertin, of which clementines are full, prevents bone loss and reduces fat in blood and liver.

It is processed in our facilities, at Via Einstein 31, Stanghella (PD) Italy, where it is washed, brushed, waxed, measured, and packed in bulk, net bags (1-5 kg), trays and packaged crates with or without leaves.

The packages are palletized based on the customer's needs; we offer different types of carton sizes and colours.

### Customized labelling upon request.

The possibility to process the product in Northern Italy allows Central and Northern Italian customers to benefit from a faster service, and thus fresher fruits. Transport services offered for deliveries in Central/Northern Italy: A X A; in Europe: A X B or A X C.

2 KG NET BAGS with GENERAL OR CUSTOMIZED LABEL

### Packaging examples:

CARTON 30x40

40x60 CRATES
